

DOPE CREDITS WHITEPAPER

Version 1.0 | January 2025

Abstract

DOPE Credits is a decentralized staking token built on the Stellar Network, designed to provide seamless passive income opportunities through an efficient staking mechanism. With its low transaction costs, instantaneous transfers, and robust ecosystem, DOPE Credits aims to establish itself as a leader in sustainable blockchain-based rewards systems. This whitepaper outlines the token's purpose, architecture, staking mechanism, distribution, and roadmap for future development.

Introduction

The global cryptocurrency market continues to evolve, with staking emerging as a popular method for earning rewards. DOPE Credits leverages the Stellar blockchain to create a sustainable and user-friendly staking platform. The project's core objective is to provide participants with a low-risk, high-reward ecosystem that promotes long-term holding and engagement.

Why DOPE Credits?

Low Fees:

Stellar's network offers transaction costs of just fractions of a cent, ensuring cost-efficiency.

Instant Transactions:

Stellar's speed allows for immediate staking, withdrawal, and rewards distribution.

Sustainability:

With 70% of the token supply dedicated to staking rewards, DOPE Credits ensures a long-term and self-sustaining ecosystem.

Scalability:

The platform's infrastructure is built to accommodate a growing user base and expanding features.

Tokenomics

Token Name:	DOPE Credits
Ticker Symbol:	DOPE
Total Supply:	1,000,000,000 DOPE
Token Price:	0.005 XLM
Market Cap:	5,000,000 XLM

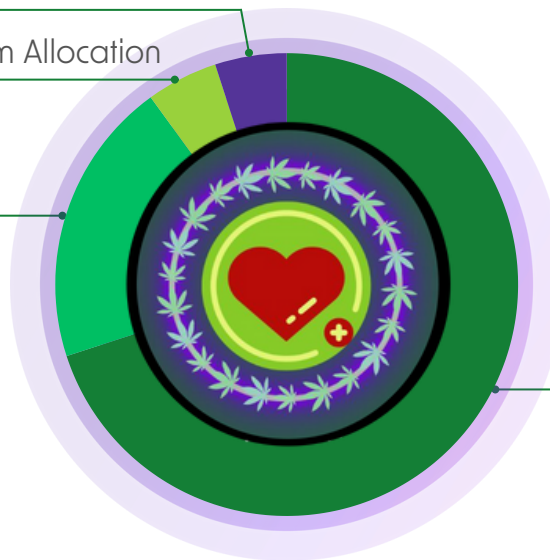

Token Distribution

5% (50,000,000): Marketing & Partnerships

5% (50,000,000): Team Allocation

20% (200,000,000):
Presale

70% (700,000,000):
Staking Rewards

Transaction Fees

How Staking Works

- Users connect their Stellar wallets to dopecredits.com.
- A minimum of 1,000 DOPE tokens is required to stake.
- Staked tokens are locked in a secure staking wallet.
- Daily rewards of 0.1% of the staked amount are distributed.
- Stakers can withdraw their tokens at any time without penalties.

Rewards Example

1,000 DOPE staked: 1 DOPE earned daily.

10,000 DOPE staked: 10 DOPE earned daily.

Roadmap

Phase 1:

Launch and Presale (Q1 2025)

- Launch DOPE Credits platform.
- Conduct presale from January 20 to January 31, 2025.
- Onboard initial community of stakers.

Phase 2:

Growth and Listings (Q2-Q3 2025)

- Secure listing on a centralized exchange (CEX).
- Achieve listing on CoinGecko.
- Expand liquidity pools on Stellar DEX.

Phase 3:

Expansion (Q4 2025)

- Reach 10,000 total stakers.
- Introduce additional use cases for DOPE Credits.
- Explore multi-chain capabilities.

Sustainability Model

With 70% of the token supply reserved for staking rewards, DOPE Credits ensures that rewards are distributed gradually over several years. This controlled emission prevents inflation while incentivizing long-term participation.

Use Cases

- **Staking Rewards:** Earn passive income.
- **Trading:** Freely trade DOPE on Stellar DEX and future CEX listings.
- **Community Growth:** Participate in governance and ecosystem expansion.

Conclusion

DOPE Credits is positioned to revolutionize the staking experience by combining Stellar's technological advantages with a community-driven approach. Our commitment to transparency, efficiency, and sustainability ensures a rewarding journey for all participants.
